

Assessment Quiz 1

ITIL® 4 Foundation

1. Which is the CORRECT approach for managing a large improvement initiative as smaller iterations?
 - A. Each iteration should be designed before starting the initiative and implemented without feedback
 - B. Feedback should only be taken into account when one iteration fails to meet its objective
 - C. Feedback should be reduced for large improvements as it is unlikely that circumstances will change
 - D. Each iteration should be continually re-evaluated based on feedback

2. Which practice has a purpose that includes aligning the organization's practices and services with changing business needs?
 - A. Service level management
 - B. Service configuration management
 - C. Relationship management
 - D. Continual improvement

3. How are target resolution times used in the 'incident management' practice?
 - A. They are agreed, documented, and communicated to help set user expectations
 - B. They are established, reviewed, and reported to ensure that customers are happy with the service
 - C. They are initiated, approved, and managed to ensure that predictable responses are achieved
 - D. They are scheduled, assessed and authorized to reduce the risk of service failures

Assessment Quiz 1

ITIL® 4 Foundation

4. Why should some service requests be fulfilled with no additional approvals?
 - A. To ensure that spending is properly accounted for
 - B. To ensure that information security requirements are met
 - C. To streamline the fulfilment workflow
 - D. To set user expectations for fulfilment times

5. Which practice involves the management of vulnerabilities that have been analysed but not resolved?
 - A. Change control
 - B. Service request management
 - C. Problem management
 - D. Service level management

6. What is a set of specialized organizational capabilities for enabling value for customers in the form of services?
 - A. Service offering
 - B. Service provision
 - C. Service management
 - D. Service consumption

Assessment Quiz 1

ITIL® 4 Foundation

7. Which gives a user access to a system?
- A. Service requirement
 - B. Service agreement
 - C. Service consumption
 - D. Service provision
8. Which statement about managing incidents is CORRECT?
- A. Low impact incidents should be resolved efficiently, making logging unnecessary
 - B. The 'incident management' practice should use a single process regardless of the impact of the incident
 - C. Low impact incidents should be resolved efficiently so the resource required is reduced
 - D. Incidents with the lowest impact should be resolved first
9. Which statement about the service value chain is CORRECT?
- A. The service value chain converts value into demand
 - B. Each value chain activity uses different combinations of practices to convert inputs into outputs
 - C. Each value chain activity identifies a requirement for resources from an external supplier
 - D. The service value chain uses value streams to describe a combination of consumers and providers

Assessment Quiz 1

ITIL® 4 Foundation

10. Which is the BEST description of the value of a service to a customer?
 - A. The amount of money the customer pays for using the service
 - B. The financial return the customer gets from using the service
 - C. The outcomes the customer receives by using the service
 - D. The customer's perception of the benefits of using the service

11. Which describes normal changes?
 - A. Changes that are low-risk and pre-authorized
 - B. Changes that need to be scheduled and assessed following a process
 - C. Changes that are typically initiated as service requests
 - D. Changes that must be implemented as soon as possible

12. Which practice forms a link between the service provider and the users of services?
 - A. Change control
 - B. Service level management
 - C. Problem management
 - D. Service desk

Assessment Quiz 1

ITIL® 4 Foundation

13. Which value chain activity ensures that products meet stakeholder expectations for quality?
- A. Design and transition
 - B. Engage
 - C. Obtain/build
 - D. Plan
14. Which practice has a purpose to support the quality of the service by handling all agreed user initiated service requests?
- A. Change Control
 - B. IT asset management
 - C. Service desk
 - D. Service request management

29. Which guiding principle considers the importance of customer loyalty?
- A. Progress iteratively with feedback
 - B. Focus on value
 - C. Optimize and automate
 - D. Start where you are
30. Which is a recommendation of the guiding principle 'think and work holistically'?
- A. Conduct a review of existing service management practices and decide what to keep and what to discard
 - B. Review how an improvement initiative can be organized into smaller, manageable sections that can be completed in a timely manner
 - C. Review service management practices and remove any unnecessary complexity
 - D. Use the four dimensions of service management to ensure coordination of all aspects of an improvement initiative

Assessment Quiz 1

ITIL® 4 Foundation

31. What helps diagnose and resolve a simple incident?
- A. Rapid escalation
 - B. Formation of a temporary team
 - C. The use of scripts
 - D. Problem prioritization
32. Which of these activities is carried out as part of 'problem management'?
- A. Creating incident records
 - B. Diagnosing and resolving incidents
 - C. Escalating incidents to a support team for resolution
 - D. Trend analysis of incident records
33. Which statement about 'continual improvement' is CORRECT?
- A. All improvement ideas should be logged in a single 'continual improvement register'
 - B. A single team should carry out 'continual improvement' across the organization
 - C. 'Continual improvement' should have minimal interaction with other practices
 - D. Everyone in the organization is responsible for some aspects of 'continual improvement'

Assessment Quiz 1

ITIL® 4 Foundation

34. Which statement about outcomes is CORRECT?
- A. Outcomes are one or more services that fulfil the needs of a service consumer
 - B. Service providers help service consumers achieve outcomes
 - C. Outcomes help service consumers achieve outputs
 - D. Helping service consumers achieve outcomes reduces service provider costs
35. What impact does automation have on a service desk?
- A. Less low level work and a greater ability to focus on user experience
 - B. Increased phone contact and a reduced ability to focus on user experience
 - C. Ability to work from multiple locations, geographically dispersed
 - D. Ability to work from a single centralised location
36. Identify the missing word(s) in the following sentence.
- The service desk should be the entry point and single point of contact for the [?] with all of its users.
- A. Service consumer
 - B. Service provider
 - C. Customer
 - D. Supplier

Assessment Quiz 1

ITIL® 4 Foundation

37. Which statement about the 'change control' practice is CORRECT?
- A. Standard changes are those that need to be scheduled, assessed and authorized following a standard process
 - B. Normal changes are triggered by the creation of a change request which can be created manually or automated
 - C. Assessment and authorization of normal changes should be expedited to ensure they can be implemented quickly
 - D. There should be a separate change authority for standard changes which includes senior managers who understand the risks involved
38. Which practice ensures that any addition, modification, or removal of anything that could have an effect on services is assessed and authorized?
- A. Deployment management
 - B. Release management
 - C. Change control
 - D. Service configuration management
39. Which dimension considers data security and privacy?
- A. Organizations and people
 - B. Information and technology
 - C. Partners and suppliers
 - D. Value streams and processes

Assessment Quiz

ITIL® 4 Foundation

40. What aspect of 'service level management' asks service consumers what their work involves and how technology helps them?
- A. Customer engagement
 - B. Operational metrics
 - C. Business metrics
 - D. Customer feedback
